Washington, DC 20515

The Honorable Nancy Pelosi, Minority Leader
US House of Representatives
235 Cannon House Office Building
Washington, DC 20515

Dear Majority Leader McConnell, Minority Leader Schumer, Speaker of the House Ryan and Minority Leader Pelosi:

On behalf of the Mental Health Liaison Group, the undersigned organizations are writing today to applaud the Congress’s announcement and passage of a recent budget deal. The Mental Health Liaison Group is a coalition of national organizations representing mental health and substance use consumers, providers, family members, and other concerned citizens. Together, on behalf of the millions of Americans living with mental health and substance use disorders, their families and communities, we advocate for public policies and funding to improve access to high-quality care.

Far too many Americans living with a mental health or substance use disorder are unable to access needed treatment. For example, among teens with a major depressive episode in the last year, just 38 percent received treatment. Only 2.5 million of the 22.7 million Americans with a drug or alcohol use disorder received treatment for their condition in 2013 – that’s a mere 11 percent.1

After months of negotiation, Congress came together to put our country, and the needs of its citizens, first. The budget deal raises the discretionary budget caps on both defense and non-defense programming – a policy the MHLG has long supported and advocated on with your offices and those of your colleagues. This policy change will allow for meaningful and life-saving government programs to continue and help millions of Americans living with mental illnesses and addictions to access the services they need. The deal includes authorization of billions of dollars in mental health and addiction treatment spending, a four-year extension of the Children’s Health Insurance Program (CHIP), and renewals of community health center funding and Medicare extenders.

Of great importance to the undersigned organizations, this agreement authorizes an additional $6 billion in spending for mental health and addiction treatment programs over the next two years. By expanding our nation’s investment in these important programs, Congress can help create healthier communities and ensure that all Americans can access the treatment they need, when they need it.

Thank you for your continued leadership and dedication to the mental health and addictions treatment community. The Mental Health Liaison Group eagerly awaits details on how the money is to be spent and looks forward to Congress’ continued support of people with mental illness and addiction in the future.
Sincerely,

2020 Mom
